24 or Older	45.1%	30.1%	48.0%	30.4%	37.3%	28.4%	45.6%	29.2%

In 2018, DDCC chose the National Student Clearinghouse (NSC) Total Completion Rate as its key completion metric for SACSCOC. The metric is based on the 6-year completion rate of students enrolling for the first time in postsecondary institutions, either as freshmen or transfer students. The data was obtained from the Postsecondary Data Partnership (PDP) Dashboard on the NSC website and shows DDCC data, disaggregated by various characteristics, compared to national benchmarks. The years indicate the entering date for each student cohort. For each of the years above, DDCC's completion rate has been higher, both overall and in all disaggregated categories, than the national benchmarks.
