## **Instructional Field Trips**

POLICY 4.2.7

Instructional field trips can be an important component of education. They often significantly enhance the content of a course by providing visual and hands-on information hard to convey in the classroom. An instructional field trip is defined as a course-related activity that serves educational purposes and occurs outside of the classroom at a location other than on the campus at which the course is regularly taught.

Adopted: November 2021
